#### Description

CARLOS HILADO MEMORIAL STATE UNIVERSITY  
BIDS AND AWARDS COMMITTEE  
TALISAY CITY, NEGROS OCCIDENTAL  
INVITATION TO BID  
FOR THE PROCUREMENT OF CONSOLIDATED ICT SUPPLIES AND EQUIPMENT FOR THE FOUR (4) CAMPUSES (2ND PUBLICATION)  
CHMSU 26-026-0810-G

1. Carlos Hilado Memorial State University, through the Corporate Budget for the Contract of 2026 approved by the governing Board (GAA/MDS), intends to apply the sum of ONE HUNDRED FORTY-SEVEN THOUSAND EIGHT HUNDRED EIGHTY-EIGHT PESOS (Php 147,888.00) ONLY being the Approved Budget for the Contract (ABC) to payments under the contract for the PROCUREMENT OF CONSOLIDATED ICT SUPPLIES AND EQUIPMENT FOR THE FOUR (4) CAMPUSES (2nd PUBLICATION). Bids received in excess of the ABC shall be automatically rejected at bid opening.

2. Carlos Hilado Memorial State University now invites bids for the above Procurement Project. Delivery of the Services is required by Forty-Five (45) calendar days upon receipt of Notice to Proceed. Bidders should have completed, within two (2) years from the date of submission and receipt of bids, a contract similar to the Project. The description of an eligible bidder is contained in the Bidding Documents, particularly, in Section II. Instructions to Bidders.

3. Bidding will be conducted through open competitive bidding procedures using the non-discretionary pass/fail criterion as specified in the 2016 Revised Implementing Rules and Regulations (IRR) of Republic Act 9184.

Bidding is restricted to Filipino citizens/sole proprietorships, partnerships, or organizations with at least sixty percent (60%) interest or outstanding capital stock belonging to citizens of the Philippines and to citizens or organizations of a country the laws or regulations of which grant similar rights or privileges to Filipino citizens, pursuant to RA 5183.

4. Prospective bidders may obtain further information from CARLOS HILADO MEMORIAL STATE UNIVERSITY and inspect the Bidding Documents at the address given below during 8:00 A.M. to 5:00 P.M.

The BAC Secretariat  
Brgy. Zone I, Mabini St.,  
Talisay City, Negros Occidental

5. A complete set of Bidding Documents may be acquired by interested Bidders on August 11 – September 1, 2026 (9:30A.M.) from the given address and website(s) below and upon payment of the applicable fee for the Bidding Documents, pursuant to the latest Guidelines issued by the GPPB, in the maximum amount of Five Hundred Pesos (Php 500.00) Only. The Procuring Entity shall allow the bidder to present its proof of payment for the fees.

6. Carlos Hilado Memorial State University will hold a Pre-Bid conference at the Bidding Room, 2/F Supply and Property Management Bldg., Brgy. Zone 1, Mabini St., Talisay City, Negros Occidental and or through video conferencing or webcasting via Zoom Meeting with ID No. 540 036 7488, Meeting Password 081826, at 9:30 A.M. on August 18, 2026, which shall be open to prospective bidders.

7. Bids must be duly received by the BAC Secretariat through (i) manual submission at the Bidding Room, 2/F Supply and Property Management Bldg., Brgy. Zone 1, Mabini St., Talisay City, Negros Occidental, (ii) online or electronic submission at [bac.sec@chmsu.edu.ph](mailto:bac.sec@chmsu.edu.ph) or (iii) both at or before 9:30 A.M. on September 1, 2026. Late bids shall not be accepted.

Bids may be submitted through electronic mail to [bac.sec@chmsu.edu.ph](mailto:bac.sec@chmsu.edu.ph) provided that the bidding documents are compressed into two (2) separate archived folders (zip or rar format) and which each folder shall be labelled as "First Envelope\_Name of Company\_Project Reference Number" and "Second Envelope\_Name of Company\_Project Reference Number" and each is uniquely password-protected;

Bidders must submit the printed copies (Original, Copy 1 and Copy 2) of their bidding documents within 3 calendar days from bid opening.

8. All Bids must be accompanied by a bid security in any of the acceptable forms and in the amount stated in ITB Clause 14.

9. Bid opening shall be at the Bidding Room, 2/F Supply and Property Management Bldg., Brgy. Zone 1, Mabini St., Talisay City, Negros Occidental through Zoom Meeting ID No. 540 036 7488, Meeting Password 090126, at 10:00 A.M. on September 1, 2026. Bids will be opened in the presence of the bidders' representatives who choose to attend the activity.

10. Carlos Hilado Memorial State University reserves the right to reject any and all bids, declare a failure of bidding, or not award the contract at any time prior to contract award in accordance with Sections 35.6 and 41 of the 2016 revised IRR of RA 9184, without thereby incurring any liability to the affected bidder or bidders.

11. For further information, please refer to:

## ***Section II. Instructions to Bidders***

### **Notes on the Instructions to Bidders**

This Section on the Instruction to Bidders (ITB) provides the information necessary for bidders to prepare responsive bids, in accordance with the requirements of the Procuring Entity. It also provides information on bid submission, eligibility check, opening and evaluation of bids, post-qualification, and on the award of contract.

## 1. Scope of Bid

- a. The Procuring Entity, CARLOS HILADO MEMORIAL STATE UNIVERSITY wishes to receive Bids for the **PROCUREMENT OF CONSOLIDATED ICT SUPPLIES AND EQUIPMENT FOR THE FOUR (4) CAMPUSES (2<sup>nd</sup> PUBLICATION)** with identification number **CHMSU 26-026-0810-G**.
- b. The Procurement Project (referred to herein as “Project”) is composed of **One (1) Lot**, the details of which are described in Section VII (Technical Specifications).

## 2. Funding Information

2.1. The GOP through the source of funding as indicated below for 2026 in the amount of **ONE HUNDRED FORTY-SEVEN THOUSAND EIGHT HUNDRED EIGHTY-EIGHT PESOS (Php 147,888.00) ONLY**.

2.2. The source of funding is:

NGA, the General Appropriations Act or Special Appropriations.

## 3. Bidding Requirements

The Bidding for the Project shall be governed by all the provisions of RA No. 9184 and its 2016 revised IRR, including its Generic Procurement Manuals and associated policies, rules and regulations as the primary source thereof, while the herein clauses shall serve as the secondary source thereof.

Any amendments made to the IRR and other GPPB issuances shall be applicable only to the ongoing posting, advertisement, or **IB** by the BAC through the issuance of a supplemental or bid bulletin.

The Bidder, by the act of submitting its Bid, shall be deemed to have verified and accepted the general requirements of this Project, including other factors that may affect the cost, duration and execution or implementation of the contract, project, or work and examine all instructions, forms, terms, and project requirements in the Bidding Documents.

## 4. Corrupt, Fraudulent, Collusive, and Coercive Practices

The Procuring Entity, as well as the Bidders and Suppliers, shall observe the highest standard of ethics during the procurement and execution of the contract. They or through an agent shall not engage in corrupt, fraudulent, collusive, coercive, and obstructive practices defined under Annex “I” of the 2016 revised IRR of RA No. 9184 or other integrity violations in competing for the Project.

## **5. Eligible Bidders**

- 5.1. Only Bids of Bidders found to be legally, technically, and financially capable will be evaluated.
- 5.2. Foreign ownership exceeding those allowed under the rules may participate pursuant to:
  - i. When a Treaty or International or Executive Agreement as provided in Section 4 of the RA No. 9184 and its 2016 revised IRR allow foreign bidders to participate;
  - ii. Citizens, corporations, or associations of a country, included in the list issued by the GPPB, the laws or regulations of which grant reciprocal rights or privileges to citizens, corporations, or associations of the Philippines;
  - iii. When the Goods sought to be procured are not available from local suppliers; or
  - iv. When there is a need to prevent situations that defeat competition or restrain trade.
- 5.3. Pursuant to Section 23.4.1.3 of the 2016 revised IRR of RA No.9184, the Bidder shall have an SLCC that is at least one (1) contract similar to the Project the value of which, adjusted to current prices using the PSA's CPI, must be at least equivalent to:
  - a. For the procurement of Non-expendable Supplies and Services: The Bidder must have completed a single contract that is similar to this Project, equivalent to at least fifty percent (50%) of the ABC.
- 5.4. The Bidders shall comply with the eligibility criteria under Section 23.4.1 of the 2016 IRR of RA No. 9184.

## **6. Origin of Goods**

There is no restriction on the origin of goods other than those prohibited by a decision of the UN Security Council taken under Chapter VII of the Charter of the UN, subject to Domestic Preference requirements under **ITB** Clause 18.

## **7. Subcontracts**

The Procuring Entity has prescribed that:

Subcontracting is not allowed.

## **8. Pre-Bid Conference**

The Procuring Entity will hold a **Pre-Bid Conference** for this Project on **August 18, 2026, 9:30 A.M.** at the Bidding Rm., 2/F Supply and Property Management Bldg., CHMSU Talisay Campus and or through video conferencing or webcasting via **Zoom Meeting with ID No. 540 036 7488, Meeting Password 081826**, which shall be open to prospective bidders.

## **9. Clarification and Amendment of Bidding Documents**

Prospective bidders may request for clarification on and/or interpretation of any part of the Bidding Documents. Such requests must be in writing and received by the Procuring Entity, either at its given address or through electronic mail indicated in the **IB**, at least ten (10) calendar days before the deadline set for the submission and receipt of Bids.

## **10. Documents comprising the Bid: Eligibility and Technical Components**

- 10.1. The first envelope shall contain the eligibility and technical documents of the Bid as specified in **Section VIII (Checklist of Technical and Financial Documents)**.
- 10.2. The Bidder's SLCC as indicated in **ITB** Clause 5.3 should have been completed within two (2) years prior to the deadline for the submission and receipt of bids.
- 10.3. If the eligibility requirements or statements, the bids, and all other documents for submission to the BAC are in foreign language other than English, it must be accompanied by a translation in English, which shall be authenticated by the appropriate Philippine foreign service establishment, post, or the equivalent office having jurisdiction over the foreign bidder's affairs in the Philippines. Similar to the required authentication above, for Contracting Parties to the Apostille Convention, only the translated documents shall be authenticated through an apostille pursuant to GPPB Resolution No. 13-2019 dated 23 May 2019. The English translation shall govern, for purposes of interpretation of the bid.

## **11. Documents comprising the Bid: Financial Component**

- 11.1. The second bid envelope shall contain the financial documents for the Bid as specified in **Section VIII (Checklist of Technical and Financial Documents)**.
- 11.2. If the Bidder claims preference as a Domestic Bidder or Domestic Entity, a certification issued by DTI shall be provided by the Bidder in accordance with Section 43.1.3 of the 2016 revised IRR of RA No. 9184.
- 11.3. Any bid exceeding the ABC indicated in paragraph 1 of the **IB** shall not be accepted.

- 11.4. For Foreign-funded Procurement, a ceiling may be applied to bid prices provided the conditions are met under Section 31.2 of the 2016 revised IRR of RA No. 9184.
- 11.5. Financial proposals for single or multi-year Framework Agreement shall be submitted before the deadline of submission of bids as prescribed in the **IB**. For multi-year Framework Agreement, evaluation of the financial proposal during this stage is for purposes of determining eligibility and whether or not such financial proposal is within the ABC.

## **12. Bid Prices**

- 12.1. Prices indicated on the Price Schedule shall be entered separately in the following manner:
  - a. For Goods offered from within the Procuring Entity's country:
    - i. The price of the Goods quoted EXW (ex-works, ex-factory, ex-warehouse, ex-showroom, or off-the-shelf, as applicable);
    - ii. The cost of all customs duties and sales and other taxes already paid or payable;
    - iii. The cost of transportation, insurance, and other costs incidental to delivery of the Goods to their final destination; and
    - iv. The price of other (incidental) services, if any, listed in e.
  - b. For Goods offered from abroad:
    - i. Unless otherwise stated in the **BDS**, the price of the Goods shall be quoted delivered duty paid (DDP) with the place of destination in the Philippines as specified in the **BDS**. In quoting the price, the Bidder shall be free to use transportation through carriers registered in any eligible country. Similarly, the Bidder may obtain insurance services from any eligible source country.
    - ii. The price of other (incidental) services, if any, as listed in **Section VII (Technical Specifications)**.

## **13. Bid and Payment Currencies**

- 13.1. For Goods that the Bidder will supply from outside the Philippines, the bid prices may be quoted in the local currency or tradeable currency accepted by the BSP at the discretion of the Bidder. However, for purposes of bid evaluation, Bids denominated in foreign currencies, shall be converted to Philippine currency based

on the exchange rate as published in the BSP reference rate bulletin on the day of the bid opening.

13.2. Payment of the contract price shall be made in:

a. Philippine Pesos.

## 14. Bid Security

14.1. The Bidder shall submit a Bid Securing Declaration<sup>1</sup> or any form of Bid Security in the amount indicated in the **BDS**, which shall be not less than the percentage of the ABC in accordance with the schedule in the **BDS**.

14.2. The Bid and bid security shall be valid until **December 30, 2026. (120 calendar days upon the date of bid opening)**. Any Bid not accompanied by an acceptable bid security shall be rejected by the Procuring Entity as non-responsive.

## 15. Sealing and Marking of Bids

15.1 Each bidder shall enclose their original technical proposal described in ITB Clause 10, in one sealed envelope marked “ORIGINAL - TECHNICAL PROPOSAL”, and the original of their financial proposal described in ITB Clause 11 in another sealed envelope marked “ORIGINAL - FINANCIAL PROPOSAL”, sealing them all in an outer envelope marked “ORIGINAL BID”.

15.2. Each copy of the first and second envelopes shall be similarly sealed duly marking the inner envelopes as “COPY NO. \_\_\_\_ - TECHNICAL PROPOSAL” and “COPY NO. \_\_\_\_ – FINANCIAL PROPOSAL” and the outer envelope as “COPY NO. \_\_\_\_”, respectively. These envelopes containing the original and the copies shall then be enclosed in one single envelope.

15.3. The original and the number of copies of the bid as indicated in the BDS shall be typed or written in ink and shall be signed by the bidder or its duly authorized representative/s.

15.4. All envelopes shall:

- (a) contain the name of the contract to be bid in capital letters;
- (b) bear the name and address of the Bidder in capital letters;
- (c) be addressed to the Procuring Entity’s BAC
- (d) bear the specific identification of this bidding process; and
- (e) bear a warning “DO NOT OPEN BEFORE...” the date and time for the opening of bids, in accordance with ITB Clause 16.

---

<sup>1</sup> In the case of Framework Agreement, the undertaking shall refer to entering into contract with the Procuring Entity and furnishing of the performance security or the performance securing declaration within ten (10) calendar days from receipt of Notice to Execute Framework Agreement.

- 15.5. Bid envelopes that are not properly sealed and marked, as required in the bidding documents, shall not be rejected, but the bidder or its duly authorized representative shall acknowledge such condition of the Bid as submitted. The BAC or the Procuring Entity shall assume no responsibility for the misplacement of the contents of the improperly sealed or marked Bid, or for its premature opening.
- 15.6. If the Procuring Entity allows the submission of bids through online submission or any other electronic means, the Bidder shall submit an electronic copy of its Bid, which must be digitally signed. An electronic copy that cannot be opened or is corrupted shall be considered non-responsive and, thus, automatically disqualified.

## **16. Deadline for Submission of Bids**

- 16.1. The Bidders shall submit on the specified date and time and either at its physical address or through online submission as indicated in paragraph 7 of the **IB**.

## **17. Opening and Preliminary Examination of Bids**

- 17.1. The BAC shall open the Bids in public at the time, on the date, and at the place specified in paragraph 9 of the **IB**. The Bidders' representatives who are present shall sign a register evidencing their attendance. In case videoconferencing, webcasting or other similar technologies will be used, attendance of participants shall likewise be recorded by the BAC Secretariat.

In case the Bids cannot be opened as scheduled due to justifiable reasons, the rescheduling requirements under Section 29 of the 2016 revised IRR of RA No. 9184 shall prevail.

- 17.2. The preliminary examination of bids shall be governed by Section 30 of the 2016 revised IRR of RA No. 9184.

## **18. Domestic Preference**

- 18.1. The Procuring Entity will grant a margin of preference for the purpose of comparison of Bids in accordance with Section 43.1.2 of the 2016 revised IRR of RA No. 9184.

## **19. Detailed Evaluation and Comparison of Bids**

- 19.1. The Procuring BAC shall immediately conduct a detailed evaluation of all Bids rated "*passed*," using non-discretionary pass/fail criteria. The BAC shall consider the conditions in the evaluation of Bids under Section 32.2 of the 2016 revised IRR of RA No. 9184.

- 19.2. If the Project allows partial bids, bidders may submit a proposal on any of the lots or items, and evaluation will be undertaken on a per lot or item basis, as the case maybe. In this case, the Bid Security as required by **ITB** Clause 15 shall be submitted for each lot or item separately.
- 19.3. The descriptions of the lots or items shall be indicated in **Section VII (Technical Specifications)**, although the ABCs of these lots or items are indicated in the **BDS** for purposes of the NFCC computation pursuant to Section 23.4.2.6 of the 2016 revised IRR of RA No. 9184. The NFCC must be sufficient for the total of the ABCs for all the lots or items participated in by the prospective Bidder.
- 19.4. The Project shall be awarded as follows:
- One Project having several items grouped into several lots, which shall be awarded as separate contracts per lot.
- 19.5. Except for bidders submitting a committed Line of Credit from a Universal or Commercial Bank in lieu of its NFCC computation, all Bids must include the NFCC computation pursuant to Section 23.4.1.4 of the 2016 revised IRR of RA No. 9184, which must be sufficient for the total of the ABCs for all the lots or items participated in by the prospective Bidder. For bidders submitting the committed Line of Credit, it must be at least equal to ten percent (10%) of the ABCs for all the lots or items participated in by the prospective Bidder.

## **20. Post-Qualification**

Within a non-extendible period of five (5) calendar days from receipt by the Bidder of the notice from the BAC that it submitted the Lowest Calculated Bid. The Bidder shall submit its latest income and business tax returns filed and paid through the BIR Electronic Filing and Payment System (eFPS) and other appropriate licenses and permits required by law and stated in the **BDS**.

## **21. Signing of the Contract**

- 21.1. The documents required in Section 37.2 of the 2016 revised IRR of RA No. 9184 shall form part of the Contract. Additional Contract documents are indicated in the **BDS**.

## ***Section III. Bid Data Sheet***

### **Notes on the Bid Data Sheet**

The Bid Data Sheet (BDS) consists of provisions that supplement, amend, or specify in detail, information, or requirements included in the ITB found in Section II, which are specific to each procurement.

This Section is intended to assist the Procuring Entity in providing the specific information in relation to corresponding clauses in the ITB and has to be prepared for each specific procurement.

The Procuring Entity should specify in the BDS information and requirements specific to the circumstances of the Procuring Entity, the processing of the procurement, and the bid evaluation criteria that will apply to the Bids. In preparing the BDS, the following aspects should be checked:

- a. Information that specifies and complements provisions of the ITB must be incorporated.
- b. Amendments and/or supplements, if any, to provisions of the ITB as necessitated by the circumstances of the specific procurement, must also be incorporated.

# Bid Data Sheet

| ITB Clause  |                                                                                                                                                                                                                                                                                                                                                                                                                        |                |              |                |  |       |                |

|          |     |      | circuit switch, Over-temperature: thermal switch                |            |             |
|          |     |      | Indicators Regulating LED: Green                                |            |             |
|          |     |      | Environment Humidity: 0-95% (Non-condensing)                    |            |             |
|          |     |      | Noise Level: Less than 40dB at 1M                               |            |             |
|          |     |      | Dimension(W*H*D): 80*77*220MM                                   |            |             |
| 2        | 2   | PCS  | Maintenance Box Chip Resetter                                   |            |             |
|          |     |      | Compatible with Epson T04D1                                     |            |             |
|          |     |      | Compatible with Epson T04D1                                     |            |             |
|          |     |      | Function: Resets waste ink counter chip                         |            |             |
|          |     |      | Operation: Plug-in / press-to-reset                             |            |             |
|          |     |      | Power: Battery or USB (varies by model)                         |            |             |
|          |     |      | Use: Printer maintenance / servicing                            |            |             |
| 3        | 8   | PCS  | Printer Belt Encoder Strip                                      |            |             |
|          |     |      | Compatible with Epson L3110                                     |            |             |
|          |     |      | Material: Clear plastic with printed scale                      |            |             |
|          |     |      | Function: Carriage position sensing                             |            |             |
|          |     |      | Location: Inside printer, behind carriage rail                  |            |             |
|          |     |      | Importance: Ensures print alignment and accuracy                |            |             |
| 4        | 10  | BOT  | Printer Cleaning Solution                                       |            |             |
|          |     |      | Use: Print head, ink nozzle, ink tube cleaning                  |            |             |
|          |     |      | Compatible: Dye & pigment ink printers                          |            |             |
|          |     |      | Application: Manual cleaning / flushing                         |            |             |
|          |     |      | Purpose: Removes dried or clogged ink                           |            |             |
| 5        | 5   | PCS  | Printer Head Cable and Sensor                                   |            |             |
|          |     |      | Compatible with Epson L120                                      |            |             |
|          |     |      | Parts included:                                                 |            |             |
|          |     |      | Print head flat cable (FFC), Sensor (carriage / encoder sensor) |            |             |
|          |     |      | Function: Signal transmission & position detection              |            |             |
|          |     |      | Use: Printer repair / replacement part                          |            |             |
|          |     |      | Material: Flexible ribbon cable + electronic sensor             |            |             |

|          |     |      | Type: Line-Interactive UPS with AVR (Automatic Voltage           |            |             |
|          |     |      | Regulation), Capacity: ~1000 VA / 600 W, Phase: Single-Phase AC  |            |             |
|          |     |      | Form Factor: Tower style (upright design typical of              |            |             |
|          |     |      | conventional UPS units), Weight & Size: About ~5.8 kg and        |            |             |
|          |     |      | ~95 × 320 × 160 mm, Weight & Size: About ~5.8 kg and             |            |             |
|          |     |      | ~95 × 320 × 160 mm, Input / Output                               |            |             |
|          |     |      | Input Voltage: Designed for 220 / 230 / 240 V AC                 |            |             |
|          |     |      | (50 / 60 Hz) single-phase grid inputs                            |            |             |
|          |     |      | Output Voltage: Regulated 220 / 230 / 240 V AC via AVR           |            |             |
|          |     |      | and battery backup as needed                                     |            |             |
|          |     |      | Automatic Voltage Regulation (AVR): Boost and buck to            |            |             |
|          |     |      | correct high or low input voltages before switching to           |            |             |
|          |     |      | battery, Sockets: Usually 4 × universal outlets to accommodate   |            |             |
|          |     |      | different plug types, Battery,                                   |            |             |
|          |     |      | Battery Type: Internal sealed lead-acid (typical for this class) |            |             |
|          |     |      | Battery Configuration: 1 × 12 V/9 Ah (common spec on             |            |             |
|          |     |      | equivalent AID1000 models)                                       |            |             |
|          |     |      | Charging: Fast charging with auto-charge even in OFF             |            |             |
|          |     |      | mode, Cold Start: Can power on directly from battery in absence  |            |             |
|          |     |      | of utility power, Indicators & Controls,                         |            |             |
|          |     |      | Front panel LED indicators for AC output (green), battery        |            |             |
|          |     |      | status (yellow), and DC output (red)                             |            |             |
|          |     |      | Power On/Off button on front panel, Protection                   |            |             |
|          |     |      | Overload protection & short-circuit protection                   |            |             |
|          |     |      | Basic surge and undervoltage defense via AVR and in-built        |            |             |
|          |     |      | control, Runtime                                                 |            |             |
|          |     |      | Offers several minutes of runtime depending on connected         |            |             |
|          |     |      | load (e.g., around 7-8 minutes with ~180 W load) - actual        |            |             |
|          |     |      | backup time varies by usage and battery condition.               |            |             |
| 11       | 2   | PCS  | <b>10 pcs screwdriver and precision screwdriver set</b>          |            |             |
|          |     |      | Basic Screwdrivers (6 pieces)                                    |            |             |
|          |     |      | Used for general household tasks like furniture assembly,        |            |             |
|          |     |      | appliances, etc., Slotted (Flathead) sizes - e.g., SL5×75mm,     |            |             |
|          |     |      | SL5×100mm, SL6×150mm, Phillips sizes - e.g., PH1×75mm,           |            |             |
|          |     |      | PH1×100mm, PH2×150mm, Precision Screwdrivers (4 small pieces)    |            |             |
|          |     |      | Used for electronics, gadgets, eyeglasses, tiny screws.          |            |             |
|          |     |      | Slotted - e.g., SL3 × 50 mm, Phillips - PH0 × 50 mm              |            |             |

| Item No. | Qty | Unit  | ARTICLES and DESCRIPTION                                    | Unit Price | Total Price |
|----------|-----|-------|-------------------------------------------------------------|------------|-------------|
|          |     |       | Torx - T6 & T8 × 50 mm,                                     |            |             |
|          |     |       | Total: 10 pieces - 6 regular + 4 precision drivers.         |            |             |
| 12       | 2   | PCS   | <b>Crimping Tool</b>                                        |            |             |
|          |     |       | Electrical terminals: ring, spade, butt connectors          |            |             |
|          |     |       | Networking cables: RJ45 (Ethernet), RJ11 (phone), RJ12      |            |             |
|          |     |       | Modular plugs: crimping data connectors onto CAT5/6/7       |            |             |
|          |     |       | cables                                                      |            |             |
|          |     |       | Some tools can crimp, cut, and strip wires in one tool.     |            |             |
|          |     |       | Handheld plier-style: manual hydraulic, ratchet, or regular |            |             |
|          |     |       | Ratchet action: ensures full compression before release     |            |             |
|          |     |       | Adjustable dies or multiple crimping positions              |            |             |
|          |     |       | Insulated handles for safe electrical work (in some         |            |             |
|          |     |       | models)                                                     |            |             |
| 13       | 2   | PCS   | <b>HDD/SSD DOCKING STATION</b>                              |            |             |
|          |     |       | Compatibility: 2.5" & 3.5" SATA HDD/SSD (SATA I/II/III).    |            |             |
|          |     |       | Interface: USB 3.0 / USB 3.2 Gen 1 (up to 5 Gbps) - fast    |            |             |
|          |     |       | transfers.                                                  |            |             |
|          |     |       | Clone Function: Some docks can copy drives without a PC     |            |             |
|          |     |       | connected. Plug & Play: No drivers needed on most systems   |            |             |
|          |     |       | (Windows, Mac, Linux).                                      |            |             |
|          |     |       | Hot-Swappable: You can add/remove drives without            |            |             |
|          |     |       | shutting down (varies by model).                            |            |             |
| 14       | 3   | PCS   | <b>VGA TO HDMI</b>                                          |            |             |
|          |     |       | Direction: VGA input → HDMI output (unidirectional)         |            |             |
|          |     |       | Video Support: Up to 1920×1080 (1080p) at 60 Hz on          |            |             |
|          |     |       | most converters                                             |            |             |
|          |     |       | Audio: Often includes a 3.5 mm stereo audio input to        |            |             |
|          |     |       | embed audio into HDMI                                       |            |             |
|          |     |       | Power: Many adapters are USB-powered if the VGA             |            |             |
|          |     |       | source can't supply enough power for conversion             |            |             |
|          |     |       | Compatibility: Works with older desktops/laptops with       |            |             |
|          |     |       | VGA ports and HDTVs/Monitors with HDMI inputs               |            |             |
| 15       | 6   | PACKS | <b>DOUBLE A BATTERY (AA)</b>                                |            |             |
|          |     |       | Type: AA (Double-A)                                         |            |             |
|          |     |       | Voltage: 1.5V (Alkaline) / 1.2V (Rechargeable)              |            |             |
|          |     |       | Size: Approx. 50.5 mm length × 14.5 mm diameter             |            |             |
|          |     |       | Capacity: Approx. 1,800–3,000 mAh (alkaline)                |            |             |
|          |     |       | Chemical Type: Alkaline/Carbon Zinc/Ni-MH                   |            |             |
|          |     |       | (rechargeable)                                              |            |             |
|          |     |       | Common Uses: Remote controls, toys, flashlights, radios,    |            |             |

| 18       | 3   | PCS   | <b>USB Type-C to LAN Adapter</b>                           |            |             |
|          |     |       | Operating System: Windows 11/10/8.1/8/7/XP, Mac OS,        |            |             |
|          |     |       | iPad OS, Chrome OS, Linux                                  |            |             |
|          |     |       | Data transfer rate: 1000 Megabits Per Second               |            |             |
|          |     |       | Hardware interface: USB 3.1 Type C                         |            |             |
| 19       | 3   | PCS   | <b>Male USB C to Female USB A Adapter, 1 m</b>             |            |             |
|          |     |       | • Male-to-female connector, • USB A-to-USB C connector     |            |             |
|          |     |       | • Length of 1 m, • Black sheath color, • USB A type 3.0    |            |             |
|          |     |       | • USB C type 3.1                                           |            |             |
| 20       | 5   | PCS   | <b>HDMI Male-to-Male Cable 10m</b>                         |            |             |
|          |     |       | Supports 4K, 1080P full HD, 3D, Ethernet Channel,          |            |             |
|          |     |       | 48-bit Deep Color and Audio Return Channel (ARC),          |            |             |
|          |     |       | audio video sync, HDCP compliant.                          |            |             |
|          |     |       | Widely compatible with Blu-ray player, computer,           |            |             |
|          |     |       | AV receiver, Roku, PS 3/4. Xbox One/360,                   |            |             |
|          |     |       | Nintendo Wii, TV, HDTV, monitor, or projector.             |            |             |
| 21       | 6   | PCS   | <b>HDMI Male-to-Male Cable 5m</b>                          |            |             |
|          |     |       | Supports 4K, 1080P full HD, 3D, Ethernet Channel,          |            |             |
|          |     |       | 48-bit Deep Color and Audio Return Channel (ARC),          |            |             |
|          |     |       | audio video sync, HDCP compliant.                          |            |             |
|          |     |       | Widely compatible with Blu-ray player, computer,           |            |             |
|          |     |       | AV receiver, Roku, PS 3/4. Xbox One/360,                   |            |             |
|          |     |       | Nintendo Wii, TV, HDTV, monitor, or projector.             |            |             |
| 22       | 10  | PCS   | <b>HDMI Male-to-Male Cable 15m</b>                         |            |             |
|          |     |       | Supports 4K, 1080P full HD, 3D, Ethernet Channel,          |            |             |
|          |     |       | 48-bit Deep Color and Audio Return Channel (ARC),          |            |             |

|    | <b>with AVR Uninterruptible Power Supply</b>                     |   |   |  |
|    | General                                                          |   |   |  |
|    | Type: Line-Interactive UPS with AVR (Automatic Voltage           |   |   |  |
|    | Regulation), Capacity: ~1000 VA / 600 W, Phase: Single-Phase AC  |   |   |  |
|    | Form Factor: Tower style (upright design typical of              |   |   |  |
|    | conventional UPS units), Weight & Size: About ~5.8 kg and        |   |   |  |
|    | ~95 × 320 × 160 mm, Weight & Size: About ~5.8 kg and             |   |   |  |
|    | ~95 × 320 × 160 mm, Input / Output                               |   |   |  |
|    | Input Voltage: Designed for 220 / 230 / 240 V AC                 |   |   |  |
|    | (50 / 60 Hz) single-phase grid inputs                            |   |   |  |
|    | Output Voltage: Regulated 220 / 230 / 240 V AC via AVR           |   |   |  |
|    | and battery backup as needed                                     |   |   |  |
|    | Automatic Voltage Regulation (AVR): Boost and buck to            |   |   |  |
|    | correct high or low input voltages before switching to           |   |   |  |
|    | battery, Sockets: Usually 4 × universal outlets to accommodate   |   |   |  |
|    | different plug types, Battery,                                   |   |   |  |
|    | Battery Type: Internal sealed lead-acid (typical for this class) |   |   |  |
|    | Battery Configuration: 1 × 12 V/9 Ah (common spec on             |   |   |  |
|    | equivalent AID1000 models)                                       |   |   |  |
|    | Charging: Fast charging with auto-charge even in OFF             |   |   |  |
|    | mode, Cold Start: Can power on directly from battery in absence  |   |   |  |
|    | of utility power, Indicators & Controls,                         |   |   |  |

|    | Overload protection & short-circuit protection                                                                                                                                                                                              |   |   |  |
|    | Basic surge and undervoltage defense via AVR and in-built control, Runtime                                                                                                                                                                  |   |   |  |
|    | Offers several minutes of runtime depending on connected load (e.g., around 7-8 minutes with ~180 W load) - actual backup time varies by usage and battery condition.                                                                       |   |   |  |
| 11 | <b>10 pcs screwdriver and precision screwdriver set</b>                                                                                                                                                                                     | 2 | 2 |  |
|    | Basic Screwdrivers (6 pieces)                                                                                                                                                                                                               |   |   |  |
|    | Used for general household tasks like furniture assembly, appliances, etc., Slotted (Flathead) sizes - e.g., SL5×75mm, SL5×100mm, SL6×150mm, Phillips sizes - e.g., PH1×75mm, PH1×100mm, PH2×150mm, Precision Screwdrivers (4 small pieces) |   |   |  |
|    | Used for electronics, gadgets, eyeglasses, tiny screws.                                                                                                                                                                                     |   |   |  |
|    | Slotted - e.g., SL3 × 50 mm, Phillips - PH0 × 50 mm                                                                                                                                                                                         |   |   |  |
|    | Torx - T6 & T8 × 50 mm,                                                                                                                                                                                                                     |   |   |  |
|    | Total: 10 pieces - 6 regular + 4 precision drivers.                                                                                                                                                                                         |   |   |  |
| 12 | <b>Crimping Tool</b>                                                                                                                                                                                                                        | 2 | 2 |  |
|    | Electrical terminals: ring, spade, butt connectors                                                                                                                                                                                          |   |   |  |
|    | Networking cables: RJ45 (Ethernet), RJ11 (phone), RJ12                                                                                                                                                                                      |   |   |  |
|    | Modular plugs: crimping data connectors onto CAT5/6/7 cables                                                                                                                                                                                |   |   |  |
|    | Some tools can crimp, cut, and strip wires in one tool.                                                                                                                                                                                     |   |   |  |
|    | Handheld plier-style: manual hydraulic, ratchet, or regular                                                                                                                                                                                 |   |   |  |
|    | Ratchet action: ensures full compression before release                                                                                                                                                                                     |   |   |  |
|    | Adjustable dies or multiple crimping positions                                                                                                                                                                                              |   |   |  |
|    | Insulated handles for safe electrical work (in some models)                                                                                                                                                                                 |   |   |  |
| 13 | <b>HDD/SSD DOCKING STATION</b>                                                                                                                                                                                                              | 2 | 2 |  |
|    | Compatibility: 2.5" & 3.5" SATA HDD/SSD (SATA I/II/III).                                                                                                                                                                                    |   |   |  |
|    | Interface: USB 3.0 / USB 3.2 Gen 1 (up to 5 Gbps) - fast transfers.                                                                                                                                                                         |   |   |  |
|    | Clone Function: Some docks can copy drives without a PC connected. Plug & Play: No drivers needed on most systems (Windows, Mac, Linux).                                                                                                    |   |   |  |
|    | Hot-Swappable: You can add/remove drives without shutting down (varies by model).                                                                                                                                                           |   |   |  |
| 14 | <b>VGA TO HDMI</b>                                                                                                                                                                                                                          | 3 | 3 |  |
|    | Direction: VGA input → HDMI output (unidirectional)                                                                                                                                                                                         |   |   |  |
|    | Video Support: Up to 1920×1080 (1080p) at 60 Hz on most converters                                                                                                                                                                          |   |   |  |
|    | Audio: Often includes a 3.5 mm stereo audio input to embed audio into HDMI                                                                                                                                                                  |   |   |  |
|    | Power: Many adapters are USB-powered if the VGA source can't supply enough power for conversion                                                                                                                                             |   |   |  |
|    | Compatibility: Works with older desktops/laptops with VGA ports and HDTVs/Monitors with HDMI inputs                                                                                                                                         |   |   |  |
| 15 | <b>DOUBLE A BATTERY (AA)</b>                                                                                                                                                                                                                | 6 | 6 |  |
|    | Type: AA (Double-A)                                                                                                                                                                                                                         |   |   |  |
|    | Voltage: 1.5V (Alkaline) / 1.2V (Rechargeable)                                                                                                                                                                                              |   |   |  |
|    | Size: Approx. 50.5 mm length × 14.5 mm diameter                                                                                                                                                                                             |   |   |  |
|    | Capacity: Approx. 1,800–3,000 mAh (alkaline)                                                                                                                                                                                                |   |   |  |
|    | Chemical Type: Alkaline/Carbon Zinc/Ni-MH (rechargeable)                                                                                                                                                                                    |   |   |  |
|    | Common Uses: Remote controls, toys, flashlights, radios, wireless mouse & keyboard                                                                                                                                                          |   |   |  |
| 16 | <b>TRIPLE A BATTERY (AAA)</b>                                                                                                                                                                                                               | 6 | 6 |  |

|    |                                                                                                                                                |    |    |  |
|----|------------------------------------------------------------------------------------------------------------------------------------------------|----|----|--|
|    | Voltage: 1.5V (Alkaline) / 1.2V (Rechargeable)                                                                                                 |    |    |  |

|      |                                                            | <p>Bidders must state here either "Comply" or "Not Comply" against each of the individual parameters of each Specification stating the corresponding performance parameter of the equipment offered. Statements of "Comply" or "Not Comply" must be supported by evidence in a Bidders Bid and cross-referenced to that evidence. Evidence shall be in the form of manufacturer's un-amended sales literature, unconditional statements of specification and compliance issued by the manufacturer, samples, independent test data etc., as appropriate. A statement that is not supported by evidence or is subsequently found to be contradicted by the evidence presented will render the Bid under evaluation liable for rejection. A statement either in the Bidders statement of compliance or the supporting evidence that is found to be false either during Bid evaluation, post-qualification or the execution of the Contract may be regarded as fraudulent and render the Bidder or supplier liable for prosecution subject to the provisions of ITB Clause 3.1(a.2) and/or GCC Clause 2.1(a.2).</p> |

|      | Operation: Plug-in / press-to-reset                        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
|      | Power: Battery or USB (varies by model)                    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
|      | Use: Printer maintenance / servicing                       |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |

|   |                                                                 |  |
|---|-----------------------------------------------------------------|--|
| 3 | <b>Printer Belt Encoder Strip</b>                               |  |
|   | <b>Compatible with Epson L3110</b>                              |  |
|   | Material: Clear plastic with printed scale                      |  |
|   | Function: Carriage position sensing                             |  |
|   | Location: Inside printer, behind carriage rail                  |  |
|   | Importance: Ensures print alignment and accuracy                |  |
| 4 | <b>Printer Cleaning Solution</b>                                |  |
|   | Use: Print head, ink nozzle, ink tube cleaning                  |  |
|   | Compatible: Dye & pigment ink printers                          |  |
|   | Application: Manual cleaning / flushing                         |  |
|   | Purpose: Removes dried or clogged ink                           |  |
| 5 | <b>Printer Head Cable and Sensor</b>                            |  |
|   | <b>Compatible with Epson L120</b>                               |  |
|   | Parts included:                                                 |  |
|   | Print head flat cable (FFC), Sensor (carriage / encoder sensor) |  |
|   | Function: Signal transmission & position detection              |  |
|   | Use: Printer repair / replacement part                          |  |
|   | Material: Flexible ribbon cable + electronic sensor             |  |
| 6 | <b>Printer Head Cable and Sensor</b>                            |  |
|   | <b>Compatible with Epson L3110</b>                              |  |
|   | Compatible models: Epson L3110                                  |  |
|   | Parts included: Print head flat cable (FFC)                     |  |
|   | Sensor (carriage / encoder sensor)                              |  |
|   | Function: Signal transmission & position detection              |  |
|   | Use: Printer repair / replacement part                          |  |
|   | Material: Flexible ribbon cable + electronic sensor             |  |
| 7 | <b>USB Keyboard and Mouse Black</b>                             |  |
|   | Keycaps: A-Shape, Round Edge                                    |  |
|   | Hotkeys: 12 FN Multimedia Hotkeys                               |  |
|   | Character: Laser Engraving                                      |  |
|   | Adjustable Keyboard Legs: Yes                                   |  |
|   | Rating: 5 V / 30 Ma, Dimension: 454 × 153 × 32 mm               |  |
|   | Weight: 585 g, Cable Length: 150 cm, Port: USB, Mouse: OP-720   |  |
|   | Report Rate: 125 Hz, Sensor: Optical, Resolution: 1000 DPI      |  |
|   | Rating: 5 V / 100 mA, Buttons No.: 3,                           |  |
|   | Ergonomic Design: Symmetric, Size: Middle / Big Hands           |  |
|   | Dimension: 119 × 62 × 37 mm, Weight: 86 g                       |  |
|   | Cable Length: 150 cm, Port: USB                                 |  |
|   | System Requirements: Windows XP/Vista/7/8/8.1/10/11             |  |
|   | Features: FN Hot Keys, 5M Clicks Button Lifetime, 1000 DPI      |  |
|   | Dust-resistant Wheel                                            |  |
|   | Comfort Rounded keycaps, Laser Inscribed keys                   |  |
|   | Adjustable keyboard height                                      |  |
| 8 | <b>750 watts 80 Plus Bronze Power Supply</b>                    |  |
|   | PART NO.: CP-9020237, AC INPUT: 100-240V                        |  |
|   | INPUT CURRENT: 10A-5A, FREQUENCY: 47~63Hz                       |  |
|   | TOTAL POWER: 750W                                               |  |
| 9 | <b>Extension Cord Set with Universal</b>                        |  |
|   | <b>Outlet &amp; Switch</b>                                      |  |
|   | Outlets: 4 Total - typically 3 convenience outlets + 1          |  |
|   | universal outlet (accepts various plug types)                   |  |
|   | Rated Power: 2,500 W maximum total load                         |  |
|   | Rated Current: 10 A, Rated Voltage: 250 V                       |  |
|   | Cord Length: 1.83 meters (approx. 6 feet)                       |  |
|   | Switch: Master switch - controls all outlets                    |  |

|    |                                                                  |  |
|----|------------------------------------------------------------------|--|
|    | Materials: - Rigid brass internal strips,                        |  |
|    | - Copper outlet contacts for good grip and conductivity          |  |
|    | Safety Features: - Real grounding system connection              |  |
|    | Built-in safety circuit breaker, - Built-in lightning protector  |  |
|    | (surge protection), - Fire-retardant enclosure material          |  |
| 10 | <b>AVR 400-1000VA Single Phase 600W UPS</b>                      |  |
|    | <b>with AVR Uninterruptible Power Supply</b>                     |  |
|    | General                                                          |  |
|    | Type: Line-Interactive UPS with AVR (Automatic Voltage           |  |
|    | Regulation), Capacity: ~1000 VA / 600 W, Phase: Single-Phase AC  |  |
|    | Form Factor: Tower style (upright design typical of              |  |
|    | conventional UPS units), Weight & Size: About ~5.8 kg and        |  |
|    | ~95 × 320 × 160 mm, Weight & Size: About ~5.8 kg and             |  |
|    | ~95 × 320 × 160 mm, Input / Output                               |  |
|    | Input Voltage: Designed for 220 / 230 / 240 V AC                 |  |
|    | (50 / 60 Hz) single-phase grid inputs                            |  |
|    | Output Voltage: Regulated 220 / 230 / 240 V AC via AVR           |  |
|    | and battery backup as needed                                     |  |
|    | Automatic Voltage Regulation (AVR): Boost and buck to            |  |
|    | correct high or low input voltages before switching to           |  |
|    | battery, Sockets: Usually 4 × universal outlets to accommodate   |  |
|    | different plug types, Battery,                                   |  |
|    | Battery Type: Internal sealed lead-acid (typical for this class) |  |
|    | Battery Configuration: 1 × 12 V/9 Ah (common spec on             |  |
|    | equivalent AID1000 models)                                       |  |
|    | Charging: Fast charging with auto-charge even in OFF             |  |
|    | mode, Cold Start: Can power on directly from battery in absence  |  |
|    | of utility power, Indicators & Controls,                         |  |
|    | Front panel LED indicators for AC output (green), battery        |  |
|    | status (yellow), and DC output (red)                             |  |
|    | Power On/Off button on front panel, Protection                   |  |
|    | Overload protection & short-circuit protection                   |  |
|    | Basic surge and undervoltage defense via AVR and in-built        |  |
|    | control, Runtime                                                 |  |
|    | Offers several minutes of runtime depending on connected         |  |
|    | load (e.g., around 7-8 minutes with ~180 W load) - actual        |  |
|    | backup time varies by usage and battery condition.               |  |
| 11 | <b>10 pcs screwdriver and precision screwdriver set</b>          |  |
|    | Basic Screwdrivers (6 pieces)                                    |  |
|    | Used for general household tasks like furniture assembly,        |  |
|    | appliances, etc., Slotted (Flathead) sizes - e.g., SL5×75mm,     |  |
|    | SL5×100mm, SL6×150mm, Phillips sizes - e.g., PH1×75mm,           |  |
|    | PH1×100mm, PH2×150mm, Precision Screwdrivers (4 small pieces)    |  |
|    | Used for electronics, gadgets, eyeglasses, tiny screws.          |  |
|    | Slotted - e.g., SL3 × 50 mm, Phillips - PH0 × 50 mm              |  |
|    | Torx - T6 & T8 × 50 mm,                                          |  |
|    | Total: 10 pieces - 6 regular + 4 precision drivers.              |  |
| 12 | <b>Crimping Tool</b>                                             |  |
|    | Electrical terminals: ring, spade, butt connectors               |  |
|    | Networking cables: RJ45 (Ethernet), RJ11 (phone), RJ12           |  |
|    | Modular plugs: crimping data connectors onto CAT5/6/7            |  |
|    | cables                                                           |  |
|    | Some tools can crimp, cut, and strip wires in one tool.          |  |
|    | Handheld plier-style: manual hydraulic, ratchet, or regular      |  |
|    | Ratchet action: ensures full compression before release          |  |

|    |                                                                                                                                          |  |
|----|------------------------------------------------------------------------------------------------------------------------------------------|--|
|    | Adjustable dies or multiple crimping positions                                                                                           |  |
|    | Insulated handles for safe electrical work (in some models)                                                                              |  |
| 13 | <b>HDD/SSD DOCKING STATION</b>                                                                                                           |  |
|    | Compatibility: 2.5" & 3.5" SATA HDD/SSD (SATA I/II/III).                                                                                 |  |
|    | Interface: USB 3.0 / USB 3.2 Gen 1 (up to 5 Gbps) - fast transfers.                                                                      |  |
|    | Clone Function: Some docks can copy drives without a PC connected. Plug & Play: No drivers needed on most systems (Windows, Mac, Linux). |  |
|    | Hot-Swappable: You can add/remove drives without shutting down (varies by model).                                                        |  |
| 14 | <b>VGA TO HDMI</b>                                                                                                                       |  |
|    | Direction: VGA input → HDMI output (unidirectional)                                                                                      |  |
|    | Video Support: Up to 1920×1080 (1080p) at 60 Hz on most converters                                                                       |  |
|    | Audio: Often includes a 3.5 mm stereo audio input to embed audio into HDMI                                                               |  |
|    | Power: Many adapters are USB-powered if the VGA source can't supply enough power for conversion                                          |  |
|    | Compatibility: Works with older desktops/laptops with VGA ports and HDTVs/Monitors with HDMI inputs                                      |  |
| 15 | <b>DOUBLE A BATTERY (AA)</b>                                                                                                             |  |
|    | Type: AA (Double-A)                                                                                                                      |  |
|    | Voltage: 1.5V (Alkaline) / 1.2V (Rechargeable)                                                                                           |  |
|    | Size: Approx. 50.5 mm length × 14.5 mm diameter                                                                                          |  |
|    | Capacity: Approx. 1,800–3,000 mAh (alkaline)                                                                                             |  |
|    | Chemical Type: Alkaline/Carbon Zinc/Ni-MH (rechargeable)                                                                                 |  |
|    | Common Uses: Remote controls, toys, flashlights, radios, wireless mouse & keyboard                                                       |  |
| 16 | <b>TRIPLE A BATTERY (AAA)</b>                                                                                                            |  |
|    | Voltage: 1.5V (Alkaline) / 1.2V (Rechargeable)                                                                                           |  |
|    | Size: Approx. 44.5 mm length × 10.5 mm diameter                                                                                          |  |
|    | Capacity: Approx. 800–1,200 mAh (alkaline)                                                                                               |  |
|    | Chemical Type: Alkaline/Carbon Zinc/Ni-MH (rechargeable)                                                                                 |  |
|    | Common Uses: TV remotes, clocks, small LED lights, wireless keyboard/mouse, calculators                                                  |  |
| 17 | <b>8GB DDR4 3200MHz RAM</b>                                                                                                              |  |
|    | Module Type: 288 Pin Unbuffered DIMM Non ECC                                                                                             |  |
|    | Capacity: 8GB, Frequency: 3200, Data Transfer: 25,600 MB/s                                                                               |  |
|    | Bandwidth: (PC4 25600), Latency: CL22-22-22-52                                                                                           |  |
|    | Voltage: 1.2V                                                                                                                            |  |
| 18 | <b>USB Type-C to LAN Adapter</b>                                                                                                         |  |
|    | Operating System: Windows 11/10/8.1/8/7/XP, Mac OS, iPad OS, Chrome OS, Linux                                                            |  |
|    | Data transfer rate: 1000 Megabits Per Second                                                                                             |  |
|    | Hardware interface: USB 3.1 Type C                                                                                                       |  |
| 19 | <b>Male USB C to Female USB A Adapter, 1 m</b>                                                                                           |  |
|    | • Male-to-female connector, • USB A-to-USB C connector                                                                                   |  |
|    | • Length of 1 m, • Black sheath color, • USB A type 3.0                                                                                  |  |
|    | • USB C type 3.1                                                                                                                         |  |
| 20 | <b>HDMI Male-to-Male Cable 10m</b>                                                                                                       |  |
|    | Supports 4K, 1080P full HD, 3D, Ethernet Channel,                                                                                        |  |

|    |                                                            |  |
|----|------------------------------------------------------------|--|
|    | 48-bit Deep Color and Audio Return Channel (ARC),          |  |

## ***Section IV. General Conditions of Contract***

### **Notes on the General Conditions of Contract**

The General Conditions of Contract (GCC) in this Section, read in conjunction with the Special Conditions of Contract in Section V and other documents listed therein, should be a complete document expressing all the rights and obligations of the parties.

Matters governing performance of the Supplier, payments under the contract, or matters affecting the risks, rights, and obligations of the parties under the contract are included in the GCC and Special Conditions of Contract.

Any complementary information, which may be needed, shall be introduced only through the Special Conditions of Contract.

## **1. Scope of Contract**

This Contract shall include all such items, although not specifically mentioned, that can be reasonably inferred as being required for its completion as if such items were expressly mentioned herein. All the provisions of RA No. 9184 and its 2016 revised IRR, including the Generic Procurement Manual, and associated issuances, constitute the primary source for the terms and conditions of the Contract, and thus, applicable in contract implementation. Herein clauses shall serve as the secondary source for the terms and conditions of the Contract.

This is without prejudice to Sections 74.1 and 74.2 of the 2016 revised IRR of RA No. 9184 allowing the GPPB to amend the IRR, which shall be applied to all procurement activities, the advertisement, posting, or invitation of which were issued after the effectivity of the said amendment.

Additional requirements for the completion of this Contract shall be provided in the **Special Conditions of Contract (SCC)**.

## **2. Advance Payment and Terms of Payment**

2.1. Advance payment of the contract amount is provided under Annex “D” of the revised 2016 IRR of RA No. 9184.

2.2. The Procuring Entity is allowed to determine the terms of payment on the partial or staggered delivery of the Goods procured, provided such partial payment shall correspond to the value of the goods delivered and accepted in accordance with prevailing accounting and auditing rules and regulations. The terms of payment are indicated in the **SCC**.

## **3. Performance Security**

Within ten (10) calendar days from receipt of the Notice of Award by the Bidder from the Procuring Entity but in no case later than prior to the signing of the Contract by both parties, the successful Bidder shall furnish the performance security in any of the forms prescribed in Section 39 of the 2016 revised IRR of RA No. 9184.

## **4. Inspection and Tests**

The Procuring Entity or its representative shall have the right to inspect and/or to test the Goods to confirm their conformity to the Project specifications at no extra cost to the Procuring Entity in accordance with the Generic Procurement Manual. In addition to tests in the **SCC**, **Section IV (Technical Specifications)** shall specify what inspections and/or tests the Procuring Entity requires, and where they are to be conducted. The Procuring Entity shall notify the Supplier in writing, in a timely manner, of the identity of any representatives retained for these purposes.

All reasonable facilities and assistance for the inspection and testing of Goods, including access to drawings and production data, shall be provided by the Supplier to the authorized inspectors at no charge to the Procuring Entity.

## **5. Warranty**

- 6.1. In order to assure that manufacturing defects shall be corrected by the Supplier, a warranty shall be required from the Supplier as provided under Section 62.1 of the 2016 revised IRR of RA No. 9184.
- 6.2. The Procuring Entity shall promptly notify the Supplier in writing of any claims arising under this warranty. Upon receipt of such notice, the Supplier shall, repair or replace the defective Goods or parts thereof without cost to the Procuring Entity, pursuant to the Generic Procurement Manual.

## **6. Liability of the Supplier**

The Supplier's liability under this Contract shall be as provided by the laws of the Republic of the Philippines.

If the Supplier is a joint venture, all partners to the joint venture shall be jointly and severally liable to the Procuring Entity.

## ***Section V. Special Conditions of Contract***

### **Notes on the Special Conditions of Contract**

Similar to the BDS, the clauses in this Section are intended to assist the Procuring Entity in providing contract-specific information in relation to corresponding clauses in the GCC found in Section IV.

The Special Conditions of Contract (SCC) complement the GCC, specifying contractual requirements linked to the special circumstances of the Procuring Entity, the Procuring Entity's country, the sector, and the Goods purchased. In preparing this Section, the following aspects should be checked:

- a. Information that complements provisions of the GCC must be incorporated.
- b. Amendments and/or supplements to provisions of the GCC as necessitated by the circumstances of the specific purchase, must also be incorporated.

However, no special condition which defeats or negates the general intent and purpose of the provisions of the GCC should be incorporated herein.

## Special Conditions of Contract

| GCC Clause |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |

|  | <p><b>Packaging –</b></p> <p>The Supplier shall provide such packaging of the Goods as is required to prevent their damage or deterioration during transit to their final destination, as indicated in this Contract. The packaging shall be sufficient to withstand, without limitation, rough handling during transit and exposure to extreme temperatures, salt and precipitation during transit, and open storage. Packaging case size and weights shall take into consideration, where appropriate, the remoteness of the Goods’ final destination and the absence of heavy handling facilities at all points in transit.</p> <p>The packaging, marking, and documentation within and outside the packages shall comply strictly with such special requirements as shall be expressly provided for in the Contract, including additional requirements, if any, specified below, and in any subsequent instructions ordered by the Procuring Entity.</p> <p>The outer packaging must be clearly marked on at least four (4) sides as follows:</p> <p>Name of the Procuring Entity<br/> Name of the Supplier<br/> Contract Description<br/> Final Destination<br/> Gross weight<br/> Any special lifting instructions<br/> Any special handling instructions<br/> Any relevant HAZCHEM classifications</p> |
|  | <p>A packaging list identifying the contents and quantities of the package is to be placed on an accessible point of the outer packaging if practical. If not practical the packaging list is to be placed inside the outer packaging but outside the secondary packaging.</p> <p><b>Transportation –</b></p> <p>Where the Supplier is required under Contract to deliver the Goods CIF, CIP, or DDP, transport of the Goods to the port of destination or such other named place of destination in the Philippines, as shall be specified in this Contract, shall be arranged and paid for by the Supplier, and the cost thereof shall be included in the Contract Price.</p> <p>Where the Supplier is required under this Contract to transport the Goods to a specified place of destination within the Philippines, defined as the Project Site, transport to such place of destination in the Philippines, including insurance and storage, as shall be specified in this Contract, shall be arranged by the Supplier, and related costs shall be included in the contract price.</p>                                                                                                                                                                                                                    |

|     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |

|     | <p>Where the Supplier is required under Contract to deliver the Goods CIF, CIP or DDP, Goods are to be transported on carriers of Philippine registry. In the event that no carrier of Philippine registry is available, Goods may be shipped by a carrier which is not of Philippine registry provided that the Supplier obtains and presents to the Procuring Entity certification to this effect from the nearest Philippine consulate to the port of dispatch. In the event that carriers of Philippine registry are available but their schedule delays the Supplier in its performance of this Contract the period from when the Goods were first ready for shipment and the actual date of shipment the period of delay will be considered force majeure.</p> <p>The Procuring Entity accepts no liability for the damage of Goods during transit other than those prescribed by INCOTERMS for DDP deliveries. In the case of Goods supplied from within the Philippines or supplied by domestic Suppliers risk and title will not be deemed to have passed to the Procuring Entity until their receipt and final acceptance at the final destination.</p> <p><b>Intellectual Property Rights –</b></p> <p>The Supplier shall indemnify the Procuring Entity against all third-party claims of infringement of patent, trademark, or industrial design rights arising from use of the Goods or any part thereof.</p> |
| 2.2 | <p>The terms of payment shall be as follows:</p> <p>The terms of payment : 30 days</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
| 4   | <p>The inspections and tests that will be conducted are:</p> <p>Inspection as to the Quality, Quantity, and Specifications of the items delivered.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
