GREEN CHMSU ExCELSIOR!

All deans, department chairs, and faculty members are enjoined to initiate and integrate the said themes in course lessons and activities. Office heads are likewise encouraged to help promote the theme in their offices.

The Week Ahead

Date	Time	Activity/ Event	In-charge	Audience/ Participants	Location/ Venue
Apr 8	8:00 am – 5:00 pm	ISO Internal Audit	QMO and IQA	Process Owners	All campuses
Apr 9	Araw ng Kagitingan				
Apr 10	Eid' l Fitr				

Highlights of the Week

- Thank you to all SUC Presidents, delegates, working committees, volunteers, judges, suppliers, and partners in the government and private sectors. Your support was the cornerstone of the success of RASUC Culture and the Arts Conference and Festival. We deeply appreciate your dedication and collaboration in bringing this celebration of culture and creativity to life.
- The Public Administration Students Society held a 3rd Cycle Metamorphosis: A Comprehensive Initiative for Cultivating Leadership Skills and Personal Growth on April 6, 2024 at the Student Conference Hall, Student Center, Talisay (Main) Campus.
- The DOST-SEI conducted a Undergraduate Scholarships Qualifying Examination to all student applicants for the AY 2024-2025 at the Green Building, Talisay (Main) Campus.

GLOBAL WARMING EFFECTS

Enhanced greenhouse effect keeps more heat on Earth. This creates rising land and ocean surface temperatures or global warming.

Global warming causes

- Stronger hurricanes and cyclones
- Desertification
- Decreases in snow cover and sea ice
- Rising sea levels (shore retreat)

Reducing our greenhouse gas emissions can have a real impact and fight the effects of global warming.

Each day new greenhouse gas emissions further accelerate these physical changes. Less greenhouse gases leads to a cooler and safer Earth.
